

## ***Make a Room a Home - Gift Registry at Warren Residences.***

### **Background:**

St Francis Center has developed Warren Church into 48 units of supportive housing, Warren Residences, for very low-income individuals, (those making less than 30 % of the area medium income) who are experiencing homelessness. This project will prioritize people who are working or are ready to work. Warren Residences is unique in that we are combining affordable housing with services targeted to working individuals experiencing homelessness, some of whom may have disabilities. Our collaborative effort is to not only stabilize the individual lives, but to impact the larger community by decreasing the strain on the shelter system. In addition it provides an option for people wanting to move to self-sufficiency.

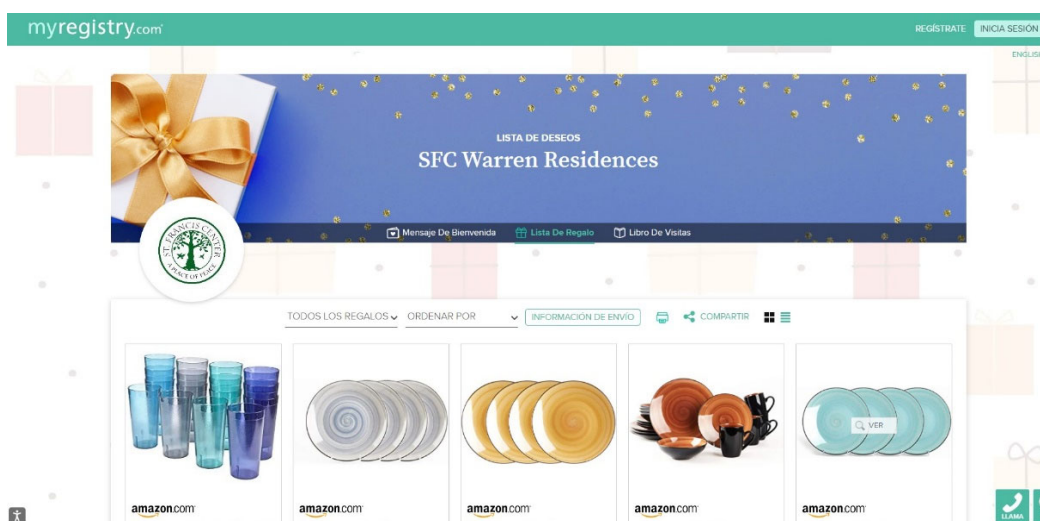

***Each resident will have their own unit, Single Room Occupancy,  
with shared communal kitchen and bathrooms.***

### **MyRegistry Gift Registry**

If you would like to get involved in the Warren Residences' opening, you can help make a room a home for one or more residents by purchasing household items from the Warren Residences Gift Registry. The housing project also includes a shared dining area, kitchen, living room and bathrooms. You can help transform those spaces by purchasing from the gift registry as well!
